

The Midwest Mingle

Fall 2014

Spotlight on Medical Case Management:

Medical case managers are helpful in cases where medical stability has not yet occurred. The focus is on assisting injured people in achieving medical stability and controlling medical costs. For those cases where work is appropriate we also assist in obtaining a release to work with the former employer in the pre-injury position, modified, or an alternate position (when appropriate). Individuals are assisted in reaching optimal medical recovery in preparation for vocational rehabilitation when return to work with former employer is not possible.

We are excited to welcome **Deb Glas, R.N.** to our qualified team. Deb has extensive experience in case management. She is skilled in creative direction for treatment and return to work. Deb is energetic and upbeat and eager to assist with any of your medical management needs.

Don't forget we also provide:

- * **Vocational Rehabilitation**
- * **Job Seeking Skills**
- * **Wage Earning Capacity Evaluations**
- * Job Analyses
- * Social Security Representation
- * Light Duty Work Coordination
- * Expert Witness
- * Life Care Plans
- * Senior Case Management services
